

World Startled By Lightning

*A sudden flash of light cracks
night's dark nut .*

*Life's impossible completeness
explodes in a moment of time.*

Frozen in the eye .

*Lasting only moments longer
than the light that revealed it.*

*A vision indelible;
as long as memory.*

May 2010

Dear friends - and colleagues

*The time I've spent in Sarawak has been a personal ,
professional and very practical epiphany.*

*After Sarawak Melbourne to where I return will be
a greyer, colder place. This greying export of that place
thanks all for the warmth of your welcome and
the support and consideration shown me over my two
months at Swinburne Sarawak .*

Until the next time we meet

Terima Kasih

Salamat Malaam
